

## SUPPLY CONDITION CODES

Code	Title	Definition
A	Serviceable (Issuable without Qualifi- cation	New, used, repaired, or reconditioned material which is serviceable and issuable to all customers without limitation or restriction. Includes material with more than 6 months of shelf life remaining.
B	Serviceable (Issuable with Qualifi- cations)	New, used, repaired, or reconditioned material which is serviceable and issuable for its intended purpose but which is restricted from issue to specific units, activities, or geographical areas by reason of its limited usefulness or short service life expectancy. Includes material with 3 through 6 months' shelf life remaining
C	Serviceable (Priority Issue)	Items which are serviceable and issuable to selected customers, but which must be issued before Condition A and B material to avoid loss or as a usable asset. Includes material with less than 3 months shelf life remaining.
D	Serviceable (Test/ Modifica- tion)	Serviceable material which requires test, alteration, modification, conversion, or disassembly. (This does not include items which must be inspected or tested immediately prior to issue.)
E	Unservice- able (Limited Restora- tion)	Material which involves only limited expense or effort to restore to serviceable condition and which is accomplished in the storage activity where the stock is located.
F	Unservice- able (Reparable)	Economically reparable material which requires repair, overhaul, or reconditioning (includes reparable items which are radioactively contaminated).
G	Unservice- able (Incomplete To Issue)	Material requiring additional parts or components to complete the end item prior to issue.
H	Unservice- able (Condemned)	Material which has been determined to be unserviceable and does not meet repair criteria (includes condemned items which are radioactively contaminated).

S    Unservice-    Material that has no value except for its  
      able            basic material content. No stock will  
      (Scrap)        be recorded as on hand in Condition  
                      Code S. This code is used only on  
                      transactions involving shipments to  
                      DRMOS. Material may not be  
                      transferred to Condition Code S prior to  
                      turn-in to DRMOS if material is  
                      recorded in Condition Code A through  
                      H at the time material is determined  
                      excess. Material identified by NSN  
                      may not be identified by this Condition  
                      Code.
